Re: Amended *Ex Parte* Communication
ET Docket No. 03-122, Revision of Parts 2 and 15 of the Commission's Rules to
Permit Unlicensed National Information Infrastructure (U-NII) Devices in the 5
GHz Band

Dear Ms. Dortch:

On October 14 – 16th, 2003, members of the Telecommunication Certification Body Council as well as Industry representatives participated in a TCB Council training session which included attendance by officials of the Commission's Office of Engineering and Technology. As part of this training for TCB's on updated FCC regulations, several discussions between the instructors, the FCC staff and the various industry members in attendance occurred throughout the three days of this training session on the above NPRM.

These discussions focused on the impact that section _____ of the NPRM would have on the TCBs and their review of industry submissions. Most specifically, the discussions addressed the technical requirements for Dynamic Frequency Selection and the lab test procedures that would be needed for these requirements. There was also some discussion of the efficiency of adopting a testing regime that conformed to international standards.

At the recommendation of the FCC Authorization Branch and in accordance with Section 1.1206 of the Commission's Rules, 47 C.F.R. § 1206, this letter is being filed electronically and a copy sent to each named FCC participant.

~~Discussions involved specifically about the following sections of the NPRM and were discussed on how these changes would affect the TCB's and their review of submittals.~~

~~Specifically the topic addressed was centered on the technical requirements for Dynamic Frequency Selection and lab test procedures. The discussion also focused if the FCC adopted a procedure via Public Notice would they also accept test done to an international standard as they currently do for emission testing.~~

Please direct any questions concerning this matter to the undersigned.

Respectfully submitted,

David A. Case NCE, NCT
Member TCB Council Executive Committee
